Notes:

Due to the significant fluctuation in the cost of raw metals and precious metals processing, if prior to the award of a contract resulting from this quotation, the price of materials significantly increases, through no fault of TRAK Microwave Corporation, the unit price shall be equitably adjusted by an amount reasonably necessary to cover any such significant price increases. As used herein, a significant price increase shall mean any increase in material prices exceeding ten percent (10%) experienced by TRAK Microwave Corporation prior to the date of the contract signing.

Unless otherwise noted TRAK Microwave Corporation Terms and Conditions of Sale attached to this quote form a part of this offer, and can also be located at <http://www.trak.com/terms.aspx>.

Effective Aug 1, 2012, TRAK Microwave Corporation, Lorch Microwave Corporation, and Channel Microwave have merged into one legal entity under the legal name of "TRAK Microwave Corporation". The operations of Channel Microwave have been fully integrated into TRAK Microwave Corporation effective October 2012. All Channel Microwave legacy part numbers will be manufactured by TRAK Microwave Corporation at one of multiple qualified production centers. For all part numbers having qualification status contingent upon location of manufacture, TRAK Microwave will notify the customer prior to acceptance of purchase order resulting from this quotation if the location of manufacture other than Tampa, FL. Manufacturing location is to be specified at the sole discretion of TRAK Microwave. Unless otherwise specified, this quotation does not include any costs associated with the change of location of manufacture, including but not limited to: first article testing/inspection, qualification testing, design verification testing (DVT), engineering analysis or other requalification requirements. Should the customer require any form of requalification testing or analysis, such testing will be quoted separately and shall be included in any resulting purchase order. All Channel Microwave part numbers will be manufactured in accordance with original drawings, bills of materials, special processes, test procedures, and with approved sources of parts, materials and processes if such sources are still currently offering the same items and services at costs compatible with the offered price, and with certified operators of equal to or enhanced certifications. No substitute products are implied. Channel Microwave part numbers that have not undergone previous engineering assessment and first-time build in Tampa, FL or alternate production center may be subject to a one-time documentation and set-up fee. TRAK Microwave reserves the right to waive this fee if the production quantity is sufficient to offset these costs.

Manufacturing Location Definitions
